SUMMARY

Former Librarian who got hooked on coding and is excited by the challenge of expanding that knowledge daily. Bringing a wealth of experience with customer service (internal and external), research, teaching, troubleshooting, and effective communication (whether with customers, team members, management, or funding agencies). Enthusiastic about writing efficient and elegant code, and eager to explore further with each new language and method learned.

PROJECTS

Lender-Be github.com/CB987/lender-be | November 2018

Users can add items they are willing to lend and search for items they need to borrow.
Built with HTML, CSS, SQL databases, Node.js and Express.
SQL database contains items and user-specific information that can be accessed from the account page.

EDUCATION

DigitalCrafts | Atlanta, GA | Immersive Full-stack Software Development Program
Valdosta State University | Valdosta, GA | Masters of Library and Information Science
University of Georgia | Athens, GA | Bachelor of Arts in English
